

6th International Conference on Cryopedology Kraków-Poland, 24-29.08.2013 Frost-affected soils: Dynamic soils in the dynamic world

Organizers:
Institute of Geography and Spatial Management, Jagiellonian University
IUSS Working Group Cryosols
Polish Society of Soil Science

The aim of the conference is to encompass the whole range of research associated with soils affected by frost, either at present or in the past. Presentations and posters will be grouped in thematic sessions connected with the following topics:

- Genesis and classification of frost-affected soils
- Paleocryogenic imprints in contemporary soils
- Functioning of Cryosols in contemporary ecosystems
- The effect of climate change on Cryosols
- Carbon dynamics in Cryosols
- Soil management in polar regions
- Soil databases and mapping of Cryosols

The exact schedule of sessions will be announced later on - the sessions will be arranged in a way allowing the attendance of all participants.

Frame programme

25.08.2013 (SUN) - conference opening, scientific sessions

26.08.2013 (MON) - scientific sessions, CWG technical meeting

27.08.2013 (TUE) - scientific sessions, conference closure, transfer to Zakopane

28.08.2013 (WED) - field trip in the Tatra Mts.

29.08.2013 (THU) - field trip in the Carpathian Foothills, return to Kraków

The detailed programme of the conference will be announced by 30.06.2013.

Accommodation - see details on our website

Important dates

31.05.2013 - Registration deadline, payment deadline, end of abstract submission

15.06.2013 - Abstract acceptance - information on the form of presentations

30.06.2013 - Detailed programme of the conference – second circular

Registration, abstract submission and details on our website
